

3RD EDUM
HELPING OTHERS THROUGH LEARNING

PROGRAM OUTLINE SNAPSHOT

MACROS & VBA

**AUTOMATE TASKS. EXTEND EXCEL.
BUILD SMARTER SOLUTIONS.**

- Record & Run Macros.
- Automate Repetitive Tasks.
- Write Powerful VBA Code.
- User Forms & Dialog Boxes.
- Work with Ranges & Objects.
- Control Excel with VBA.
- Debug & Optimize Code.
- Create Custom Functions.
- Secure & Protect VBA Projects.
- Build Real-world Solutions.

Our Macros & VBA training empowers you to automate workflows, build custom Excel solutions, and save countless

UNDERSTAND AUTOMATION POSSIBILITIES

RECORD, EDIT & MANAGE MACROS

WRITE & RUN VBA CODE EFFECTIVELY

BUILD INTERACTIVE TOOLS WITH USERFORMS

WORK WITH EXCEL OBJECTS & REFERENCES

DEBUG, TEST & OPTIMIZE CODE

**STRONG SKILLS.
SMARTER WORK.
BETTER SOLUTIONS.
GREATER IMPACT.
SUCCESS TOGETHER.**

Career Growth

In-demand VBA skills open doors to advanced roles and greater opportunities.

Better Communication

Build interactive tools that simplify complex processes and communicate results effectively.

Higher Productivity

Automate repetitive tasks and complete work faster with reliable macros.

Data Accuracy

Reduce human error by automating calculations and data handling.

Informed Decisions

Create custom reports and solutions to analyze data and make better decisions.

Future Ready

Master VBA to stay ahead in a data-driven and automation-first world.

hours of manual work with code.

PROGRAM MODULES

01 Getting Started with Macros

- What is a Macro?
- Record a Macro
- Run & Edit Macros
- Relative vs Absolute References

02 Working with VBA Editor

- VBA Editor Overview
- Modules & Procedures
- Writing Your First VBA Code
- Code Execution

03 VBA Language Fundamentals

- Variables & Data Types
- Operators & Expressions
- Control Structures
- Loops (For, Do, While)
- Functions & Sub Procedures

04 UserForms & Dialog Boxes

- Create UserForms
- Controls & Properties
- Input & Validation
- Message Boxes
- Interactive Tools

05 Excel Objects & Collections

- Work with Ranges
- Cells, Rows, Columns
- Worksheets & Workbooks
- Objects & Properties

06 Advanced VBA Techniques

- Arrays & Collections
- Error Handling
- Debugging Techniques
- Performance Optimization
- Code Best Practices

07 Automation Projects

- Automate Reports
- Data Entry Forms
- Custom Functions
- Dashboard Automation
- Real-world Projects

WHO IS THIS FOR?

Analysts, professionals, managers, and anyone who wants to automate Excel tasks and build custom solutions using Macros & VBA.

DURATION

3 to 5 Days
(Flexible Based on Scope & Needs)

LEARNING APPROACH

- Interactive Sessions
- Hands-on Practice
- Real-life Examples
- Group Activities
- Quizzes & Assessments

KEY TAKEAWAYS

Automate tasks, write powerful VBA code, build interactive tools, and develop reliable Excel solutions that drive efficiency and business impact.

Stronger Skills. Smarter Automation. Greater Impact.
Learn Today. Apply Daily. Succeed Together.
