

Design Thinking

Empathize. Define. Ideate.
Prototype. Test. Solve.

A practical and interactive program that introduces professionals to the Design Thinking mindset and process to solve real-world problems, create user-centered solutions, and drive innovation.

-  **User-Centered Approach**
Put users at the heart of problem-solving and create meaningful solutions.
-  **Innovative Problem Solving**
Use a structured creative process to solve complex challenges.
-  **Collaboration**
Foster teamwork, diverse perspectives, and co-creation.
-  **Iterate & Improve**
Test early, learn fast, and refine solutions continually.
-  **Impact & Value**
Deliver solutions that create real impact for users and businesses.

PROGRAM MODULES

				
01 Introduction to Design Thinking	02 Empathize Understand People	03 Define The Right Problem	04 Ideate Generate Ideas	05 Prototype, Test & Implement
- What is Design Thinking? - Why Design Thinking matters - Design Thinking vs. Traditional Thinking - Mindset for Innovation - The Design Thinking process overview	- Empathy and user-centered design - User research techniques - Interviews, surveys & observations - Building empathy maps - Defining user needs & pain points	- Synthesizing research insights - Point of view (POV) statements - Defining the real problem - How Might We (HMW) questions - Problem framing techniques	- Divergent vs. convergent thinking - Brainstorming techniques - Idea generation methods - Evaluating & selecting ideas - Creativity boosters	- Prototyping mindsets & types - Low-fidelity to high-fidelity prototypes - Usability testing methods - Gathering feedback & iterating - From insights to implementation

WHO IS THIS FOR?

Professionals, designers, product managers, innovators, entrepreneurs, team members, and anyone who wants to solve problems creatively and drive impact.

DURATION

1 Day Workshop
(6 Hours)

LEARNING APPROACH

Interactive | Practical
Real-life Case Studies
Group Activities
Hands-on Exercises
Tools & Templates
Action Planning

KEY TAKEAWAYS

You will be able to apply the Design Thinking process to understand users, define the right problems, generate ideas, build prototypes, and deliver impactful solutions.

Design with Empathy. Think Creatively. Solve Meaningfully.
Create Solutions. Deliver Impact. Drive Innovation.
