

PROCESS MAPPING

-  Visualize Processes.
-  Identify Improvements.
-  Drive Efficiency.
-  Deliver Value.

Process mapping helps visualize how work gets done, identify gaps and bottlenecks, and design better, faster, and more efficient processes that create value for employees and the organization.

-  DEFINE SCOPE & OBJECTIVES
-  IDENTIFY & MAP CURRENT PROCESSES
-  ANALYZE FLOW, GAPS & BOTTLENECKS
-  DESIGN FUTURE STATE PROCESSES
-  VALIDATE WITH STAKEHOLDERS
-  IMPLEMENT, MONITOR & CONTINUOUSLY IMPROVE

-  **Strategic Alignment**
Align process design with business goals and long-term organizational strategy.
-  **Visibility & Clarity**
Gain end-to-end visibility of processes and how work gets done.
-  **Efficiency & Productivity**
Eliminate waste, reduce cycle time, and improve resource utilization.
-  **Better Employee Experience**
Simplify workflows and reduce friction to enhance employee satisfaction.
-  **Risk & Compliance**
Ensure consistent processes that meet compliance and reduce operational risks.
-  **Continuous Improvement**
Build a culture of ongoing improvement and innovation in processes.

PROGRAM MODULES

- 

01

Define Scope & Objectives

 - Define process mapping goals & scope
 - Identify key processes
 - Understand business context & objectives
 - Plan mapping approach & resources
- 

02

Identify & Map Current Processes

 - Gather information from stakeholders
 - Map process steps, inputs, outputs & handoffs
 - Document roles, systems & tools involved
 - Create current state process map (As-Is)
- 

03

Analyze Process Flow, Gaps & Bottlenecks

 - Analyze flow for delays, rework & inefficiencies
 - Identify gaps, risks & bottlenecks
 - Evaluate process performance & metrics
 - Prioritize areas for improvement
- 

04

Design Future State Processes

 - Redesign simplified & optimized workflows
 - Eliminate waste & redundancies
 - Define roles, responsibilities & controls
 - Create future state process map (To-Be)
- 

05

Implement, Monitor & Improve

 - Plan implementation & change management
 - Communicate & train teams
 - Monitor performance & KPIs
 - Continuously review & refine processes

WHO IS THIS FOR?

HR professionals, process owners, managers, and organizations aiming to improve operational efficiency, standardize workflows, and drive business excellence.

DURATION

3 to 7 Days
(Flexible Based on Scope & Needs)

LEARNING APPROACH

- Expert-Led Sessions
- Real-world Case Studies
- Process Mapping Workshops
- Tools, Templates & Frameworks
- Hands-on Exercises
- Action Planning & Feedback

KEY TAKEAWAYS

Clear process visibility, reduced inefficiencies, optimized workflows, improved compliance, enhanced employee experience, and measurable business impact.
